Akarsh N

I take a problem statement to a working, tested AI product fast, and prove it works with real numbers.

2nd	4th	11 / 12	175
national fest, IGNITRRON'26 · ₹10,000	HackSprint'26, 24-hour national hackathon	laundering rings caught, zero false alarms	automated tests in GoldenLine

PROJECTS

CHAKRAVYUH — finds the money-laundering networks banks miss

2nd place · IGNITRRON'26 · team lead · 24 hours · Python · NetworkX · LLM agents · Streamlit · Live demo · GitHub

- Caught **11 of 12** hidden laundering rings with **zero false positives** on test data
- Code fact-checks every AI-written case report: **246 of 246** facts verified

NEER — AI agents that find water leaks and prove the repair worked

4th place · HackSprint'26 · 24 hours · LangGraph · MCP · FastAPI · Streamlit · GitHub

- **6 AI agents** use **19 tools** across **4 MCP servers** and a hydraulic digital twin
- A human approves every dig; a case closes only when the data proves the fix

GoldenLine — stops two ambulances racing to the same hospital bed

Smart India Hackathon 2026 entry · Python · FastAPI · SQLAlchemy · Alembic · GitHub

- Time-limited bed and blood-unit locks shared by hospitals, blood banks and families
- **175 automated tests**, **6 user roles**, **4 languages** including Tamil and Hindi

cadastra — maps land parcels from drone images and flags its own guesses

Smart India Hackathon 2026 entry · Python · GeoPandas · Shapely · Rasterio

- Marks every boundary as **observed or inferred**, so surveyors check the guesses first
- Observed edges **67.5%** correct vs **43.0%** inferred; **100%** valid parcel shapes

Also built: SafeZone (ESP32) · Strategy Lab (trading simulator) · Habits (Mac app) · Hospital Management System

AWARDS

2nd place	IGNITRRON'26, KPR Institute of Engineering and Technology · ₹10,000	Sep 2026
4th place	HackSprint'26, Velammal College of Engineering and Technology · ₹3,000 + shield	Oct 2026
Qualified	Smart India Hackathon 2026 · cleared both internal rounds as team captain	Sep 2026

EDUCATION

B.E. CSE	**PSNA College of Engineering and Technology**, Dindigul · CGPA 8.47 / 10	2025 – 2029

SKILLS

AI building	Claude Code, LangGraph, MCP, LLM agents and output verification
Backend	Python, FastAPI, SQLAlchemy, SQLite, Streamlit, NetworkX
Also	Java, C++, Git, Linux · Claude 101 certificate (Anthropic)

Looking for: startup internship in AI, full-stack or product

Open to remote work or relocation
